HOMEGROWN
ORGANIC FARMS®

FRESH Figs

FRESH CALIFORNIA FIGS

Cultivated on a 350-acre ranch in Madera, CA—an ideal microclimate for fig production—these figs are transitioning to organic certification, making them a natural fit for the Homegrown Farms™ label. This season's lineup includes Black Mission, Brown Turkey, Cal Sierra, and Tiger Stripe figs—hand-harvested at peak ripeness to protect their delicate skins and luscious, jammy interiors.

Availability: July- October

Pack Styles:

Volume Fill | 120 cs/pallet
8 oz clamshell | 120 cs/pallet
1 lb clamshell | 120 cs/pallet
2 lb clamshell | 55 cs/pallet

NUTRITION

Figs have long held their place as a treasured fruit, celebrated for their complex flavor and impressive nutritional profile. Naturally high in dietary fiber, calcium, and antioxidants, figs support digestive health and contribute to bone and heart wellness. With flavor notes that range from rich honeyed sweetness to bright berry tang, each variety offers a unique eating experience.
